**Summary of the objects of the charity set out in its governing document**

In setting our objectives and planning our activities, the trustees have given careful consideration to the Charity Commission's public benefit guidance.  
 Our key objectives for the year include:  
 - for the public benefit, advancing education of the communities on low-cost constructions in any part of the world where they have no or very little understanding of the possible use of local materials by carrying together research about techniques of construction adapted to the

climate and building together low cost educational establishments.  
- For the public knowledge in developed countries, raising awareness about lack of educational establishments in under developed countries by providing information, raising funds and recruiting volunteers to research and build educational establishments with local materials adapted to the climate.  
- for the public benefit, the advancement of education of people in need in any part of the world who have a lack of educational establishments by providing new build classes, schools and professional centres.

## **REVIEW OF ACTIVITIES HELD FROM APRIL 2021 to MARCH 2022**

### **SCHOOL CONSTRUCTION:**

No activities were held during 2021 due to Covid-19 Pandemia. By the end of the year, we started getting ready for our next school construction which we planned for the beginning of 2022.

Our 3<sup>rd</sup> school project is an existing high school, Sambou Toura School. It is located in Marsassoum, Casamance, in the southern part of Senegal. We first visited the site in 2015 when we were exploring the country in search for projects. There were 4 classrooms built as temporary structures made of bamboo walls, which collapsed at every rainy season leaving these structures in a very poor condition for the students to focus.

The designed project was the winner of the architecture competition organised in 2020 by Archstorming. For this project, we will design the foundations using superAdobe technique, i.e. filling up bags with a laterite mix of stones and sand. For the walls, we are aiming to build them with stabilized earth bricks. The designers based in Colombia are making the brick machine and will bring it in March 2022 to start the brick fabrication. For the design to be optimum, we are collaborating with a specialist of earth construction member of the institute of earth construction in Colombia.

The school construction is planned from January 2022.

### **FUNDRAISING EVENTS:**

No activities due to Covid-19 Pandemia were organised in 2021.

### **VOLUNTEER TRIP:**

The volunteer trip is set from May 21<sup>st</sup> to May 29<sup>th</sup> of 2022. The 3<sup>rd</sup> edition of LBMS volunteer trip was advertised on the first week of January 2022. Thanks to the architectural competition held by Archstorming, we had a record of over 50 applicants for volunteering. Due to the number of applicants, we will therefore increase the number of volunteers to 20 for this volunteer trip.

Applications were closed on the 8<sup>th</sup> of February. The selection process of volunteers happens by phone interview. Once we selected the 20 volunteers, a web page was opened to each of them so they could fundraise for the school project via Justgiving platform. Each volunteer needs to fundraise 800 GBP prior to the volunteer trip.

**Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)**

**COMMUNICATION:**

The main communication was about the start of the construction and the volunteer trip by the end of 2021 and the start of 2022.

**Additional details of objectives and activities (Optional information)**

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

Summary of the main achievements of the charity during the year

#### REVIEW OF ACHIEVEMENTS HELD FROM APRIL 2021 TO APRIL 2022

##### FUNDRAISING:

In 2021-2022 the income rose to £ 24,012. The income was derived from Donations mainly online and cash (99%) and fundraising through justgiving (1%).

##### CONSTRUCTION:

We started the construction of our 9 classrooms high school and organised a training with a specialized earth brick woman Maria Brown, who came to teach how to make compressed earth bricks in March 2022 to the entire team. Helping the community to acquire new skills in construction is the main goal of LBMS, beyond building educational facilities. This particular project allowed us to do so for the benefit of the community of Marsassoum.
